Professional Summary

MCA student at G.L. Bajaj with a background in Mathematics and Computer Applications and hands-on experience building and deploying full-stack web applications. Experienced with Node.js, Express.js, MongoDB, REST APIs, JWT authentication, Role-Based Access Control, Razorpay integration, and workflow automation. Founder of Gorakhpur Web Studio, where I have delivered websites and software solutions for local businesses. Open to Software Development, Backend, and Full-Stack Developer internships.

Technical Skills

Languages: JavaScript, HTML5, CSS3

Frontend: React.js, HTML5, CSS3, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, CRUD Operations, Middleware, Routing

Database: MongoDB, Mongoose

Authentication: JWT Authentication, Role-Based Access Control (RBAC)

Tools: Git, GitHub, Postman

Deployment: Render, Netlify

Automation & Integration: Google Apps Script, Google Forms, Google Sheets, Razorpay Payment Gateway

Projects

Class Orbit

JavaScript | Node.js | Express.js | MongoDB

- Developed a full-stack education platform with a modular backend architecture and responsive web interfaces.
- Built RESTful APIs for authentication, student management, fee management, and payment workflows.
- Implemented JWT authentication and Role-Based Access Control (RBAC) for secure user access.
- Integrated Razorpay Payment Gateway for online fee payments and designed MongoDB schemas, Express middleware, and reusable backend modules.
- Deployed the application using Render and Netlify with production-ready configuration.

Exam Center Help

Google Apps Script | Google Workspace

- Developed a workflow automation application using Google Apps Script and Google Workspace services.
- Automated form submissions, spreadsheet processing, and administrative workflows using Google Forms and Google Sheets.
- Reduced repetitive manual tasks and improved operational efficiency through server-side automation.

Experience

Founder & Web Developer

May 2025 – Present

Gorakhpur Web Studio

Gorakhpur, India

- Founded a web development studio focused on building custom websites and software solutions for local businesses.
- Managed the complete development lifecycle, including requirement gathering, UI design, development, deployment, and maintenance.
- Implemented backend functionality, database integration, authentication, and third-party service integrations for client projects.
- Delivered and maintained responsive websites that improved clients' online presence and customer accessibility.
